Global Timbuctoo / Mount Holly Area Directions

The village of Timbuctoo, New Jersey, lies west of the town of Mount Holly, just off Rancocas Road in Westampton, on Church Street. (There is a white church with a red door on Rancocas Road near Church Street.) Parking is available at the end of Church Street.

Rancocas Valley Regional High School is located just to the north of Mount Holly at 520 Hedding-Jacksonville Road. Parking is available in the back of the building. The Global Timbuctoo Symposium will be held in Room C120, accessible via the glass doors in the back of the building, marked Exit 13.

The Underground Railroad Museum is located in Historic Smithville Park, which lies just east of Mount Holly. Unfortunately, a major bridge is out on Smithville Road, but the park is still open and accessible via Woodlane and Smithville Roads. The park is situated on Smithville Road.

The area is accessible via the New Jersey Turnpike and Route 295. Follow exits for Mount Holly, which will put you on Route 541 Burlington-Mount Holly Road. For Timbuctoo, make a right onto Woodlane Road, then a left onto Irick Road, then a left onto Rancocas Road. Church Street will be on your right, soon after the Rancocas Nature Center sign on your right. Parking is available at the end of Church Street.

For Rancocas Valley Regional High School, continue on Rancocas Road, Route 626, crossing the Mount Holly Bypass, continuing on into the center of historic Mount Holly past the county office buildings, straight at the High Street light onto Garden Street. In about 5 blocks, make a left onto Clover Street, just after the pink Victorian house on the corner, to Hedding Jacksonville Road. Rancocas Valley High School will be on your left. Park in the back of the building, accessible on the left. Use the Exit 13 entrance.

For access to Historic Smithville Park from Rancocas Valley High School, proceed north on Hedding Jacksonville Road, turn right onto Woodlane Road and proceed east to Smithville Road, where you will again turn right. This will take you to Smithville Park in about 2 miles on your right. Although signs say the road is closed and bridge is out, the park is open. The Underground Railroad Museum is near the parking area in Smithville Park, in a marked building. There is also a Visitors Center nearby.
